

Your Personal Digital Safe

- eDocPerso -

Your employer is now digitalizing your HR documents. You will from now on, receive your payslips on your personal digital safe, eDocPerso.

Within the next few weeks, you will be able to gain access to your personal safe in order to receive and digitally store your payslips, free-of-charge, and for life – even if you leave for another company.

You are the sole-owner of this digital safe. Your employer cannot access it as it is personal and secured.

Your digital safe will also allow you to centralize and archive all your professional and personal documents: payslips, employment contracts, energy bills, insurance contracts, ID-card, etc.

Your personal safe is available from your mobile, tablet or laptop, with an internet connection. The mobile app is available on the App Store and Play Store, for free.

As provided by the French Labor Code, if you do not wish to have your payslips digitalized, you must communicate your wish via e-mail or a letter including the date when it's been sent.

An activation code and instructions will be sent to you via e-mail.

We kindly ask you to wait until receiving this e-mail to start the creation of your digital safe.

If you already have one on eDocPerso, you must inform your employer as soon as possible.
